

WE SOLVE YOUR APPLICATION CHALLENGES WITH OUR FABRICATED TUBING SOLUTIONS

OUR VALUE-ADD OFFERING:

- All fluoropolymer materials
- 2D and 3D fabrication
- Tip forming (reduce and expand)
- Flanging
- Spiralizing
- Hole punching
- Cut to length
- Spiral cut tube
- Combinations of above
- Supply and assembly of fittings

YOUR ADVANTAGES:

- Prevent kinks in tubing
- Maintain and optimize flow
- Lower life time cost
- Form stable in -100° / $+260^{\circ}\text{C}$
- From prototypes to large volumes
- Unique identification possible
- Utilize tight space without compromising safety
- Supply chain optimization

APPLICATION EXAMPLES:

- Dispensers, dosage systems
- Food and beverage machines
- Generators
- Battery cooling
- Photovoltaic systems
- Compromising safety
- Painting robots
